Professional Summary

Tech-focused Electrical Engineering undergraduate with hands-on experience in cybersecurity environments, web development, and MATLAB-based technical computing. Strong foundation in system fundamentals, networking basics, and modern web technologies. Actively building practical skills through self-driven projects and labs in ethical hacking, software development, and engineering simulations.

Education

Bachelor of Technology (B.Tech), Electrical Engineering
Ramkrishna Mahato Government Engineering College, Purulia
Affiliated to Maulana Abul Kalam Azad University of Technology (MAKAUT)
Current Semester: 3rd | Expected Graduation: 2028
SGPA: 1st Semester – 7.23 | 2nd Semester – 7.41

Higher Secondary Education (Science Stream) – 2023
West Bengal Council of Higher Secondary Education
Marks: 404 / 500 (80.8%)

Secondary Education (Madhyamik) – 2021
West Bengal Board of Secondary Education
Marks: 645 / 700 (92.1%)

Technical Skills

Programming Languages: C, Python

Web Technologies: HTML, CSS, JavaScript

Cybersecurity Tools & Platforms: Kali Linux, Basic Networking, Linux Environment

Engineering & Simulation Tools: MATLAB

Other Skills: Circuit Fundamentals, Logical Problem Solving

Projects

Personal Portfolio Website

- Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Deployed and hosted the website on Netlify for public access and professional visibility.
- Integrated structured content to showcase technical skills, education, and career interests.

Link: <https://sourav4344.netlify.app/>

Cybersecurity Practice Environment (Kali Linux)

- Configured and used Kali Linux for ethical hacking practice and security tool exploration.
- Performed basic reconnaissance and network analysis using built-in Linux and networking utilities.
- Studied system vulnerabilities and defensive concepts in a controlled lab environment.

MATLAB Technical Computing

- Used MATLAB for numerical computation, data visualization, and basic engineering simulations.
- Implemented scripts to analyze mathematical models and electrical system behavior.

Academic & Technical Interests

Electrical Machines and Power Systems, Control and Automation, Cybersecurity & Ethical Hacking, Full-Stack Web Development, Engineering Simulations

Strengths

- Strong analytical mindset with structured problem-solving approach.
- Self-driven learner focused on practical, hands-on technical growth.
- Ability to bridge hardware concepts with software-based solutions.
